**Company Overview / Capabilities:**

Founded in 2007, Aypeks Consulting provides solutions in IT Strategy, Systems Engineering, Networking and Cybersecurity that provide the experience of a large integrator with the relationship and “client first” attitude only provided by a small business firm committed to our client’s success. Aypeks is dedicated to solving client’s challenges through strong business and technology expertise to deliver tangible value.

Aypeks focuses efforts in four broad areas:

- Cybersecurity – Identity Credentialing, and Access Management (ICAM), Data governance and Management, Data Forensics, Ethical Hacking, Secure Engineering
- Systems Engineering – Virtualization, Private and Hybrid Clouds, System Architecture, System Design, SETA oversight
- Networking – Tactical, Enterprise, Mobile Ad-Hoc, SATCOM, NSA Commercial Solution for Classified (CSfC)
- IT Strategy – Business to IT Portfolio mapping, IT Effectiveness and Optimization, IT Evaluation and Product Selection

Aypeks has experience supporting Federal Government clients in the Intelligence, DoD, and Homeland Security sectors. Knowledge across all Federal clients provides the knowledge and experience to address the challenging projects in any government sector.
